Ideas for 4/4 meeting:

- 1. Polling members on interest in/plans for Symphony and open source
- 2. Alpha G add-ons or consulting: who uses what, how well does it work
- 3. Horizon 7.4.1 upgrade: who's going, when, etc.
- 4. ASP services: has anyone explored/costed, opinions of same
- 5. Chilifresh
- 6. LibraryThing
- 7. Web 2.0 implementations in HIP (Steve has some cool stuff to share from DALNET)
- 8. MarcEdit, MarcMaker/Breaker: who's using, for what, sharing tips
- 9. Virtualization of servers (we're doing here and could have someone present)
- 10. Open source network monitoring - e.g. Nagios
- 11. Web Reporter/Narrowcast
- 12. MeLCat
- 13. PocketCirc
- 14. Self checkout stations
- 15. JTData utilities (JT RSS, JT Acq, etc.) - who's using what, tips
