

MUG Business Meeting 2015

- By MUG last year (2014) forms register MUG as a non-profit in Michigan were filed with the state and accepted. An account was opened for the Michigan Users Group at Michigan First Credit Union. Funds were transferred from Wayne State University (where the MUG fund balances had been held) to the MUG checking account that was opened.
- Current balance of checking account - \$3638.51 before expenses for this year's meeting.
- With the help of SirsiDynix a revised listing has been compiled of possible members. The MUG Board may wish to reach out to prospective members in the coming year and encourage participation/attendance at the annual MUG meeting. The MUG Board can contact George Marck for more information.
- The location of the meeting was again discussed in 2014. It was mentioned that MUG will not necessarily be able to find a location that would satisfy everyone so some people may elect not to attend in a particular year. The Troy location worked well for a number of people in the State as did Baker College in Flint. Thanks to Delta Township District Library for stepping forward to host this year.
- Last year G. Marck asked if remote attendance was beneficial. For those far enough away it may be the only way they can attend. The possibility of recording the meeting to be able to post on our website was mentioned. This was not asked for in 2015 so no provisions were made.
- The possibility of providing questions and comments to SirsiDynix regarding product needs and issues was mentioned. Since most members have expressed an interest in keeping MUG a one-day event, next year we could solicit and compile feedback ahead of time and present it at the meeting. What does everyone think about this?
- Last year Judy Dyki agreed to take on Webmaster tasks and has helped to maintain the MUG website. Thanks to Judy for her service!
- New Business –

Elections 2015 – Nominations

President – Mark Hancock

Vice President – Judy Dyki

Secretary – Pat Ewing

Treasurer – Brigitte Felix

Member at large –
